PROFESSIONAL SUMMARY

B.Tech Civil Engineering student with a strong interest in construction and project planning. Skilled in preparing floor plans, elevations, sections, and complete drawing sets in AutoCAD 2D and Revit, reading and interpreting architectural drawings, and building cost estimates in Excel with AI-assisted checks. Familiar with BIM fundamentals. Seeking an internship or entry-level opportunity in drafting, estimation, or site planning.

TECHNICAL SKILLS

- **AutoCAD 2D Drafting:** Floor plans, layout drawings, sections, elevations, and detailed construction drawings with accurate dimensioning, annotation, and layer management, following engineering standards.
- **Revit & BIM:** Building modeling in Revit using BIM workflows, including parametric elements, levels, views, and drawing sheets, with an understanding of BIM fundamentals and coordinated project information.
- **3D Modeling:** Creating 3D building models and visualising layouts, spaces, and building elements to support design review and drawing production.
- **Drawing Interpretation:** Reading architectural and construction drawings (plans, sections, elevations, scales, symbols, and notes) to understand building layouts and derive work quantities.
- **Cost Estimation (Excel + AI):** Quantity take-off and cost estimates prepared in Excel; AI tools used to speed up calculations, cross-check figures, and organise estimates clearly.
- **Tendering & Bid Process:** Preparation of bid documents, tender evaluation, and contractor selection procedures.
- **Project Planning:** Floor-wise work planning and organised drawing documentation.
- **Software:** AutoCAD, Revit, Microsoft Excel, AI-assisted tools.

PROJECTS

G+1 Residential Building: Floor Plans, Work Plan & Drawing Documentation

- Prepared ground floor and first floor plans for a G+1 residential building in AutoCAD, with dimensions, room layouts, and annotations.
- Developed a work plan for both floors and compiled complete drawing documentation for the building.

Additional AutoCAD Drafting Projects

- **Residential Building Floor Plan Design** – drafted a complete residential floor plan.
- **Multi-Apartment Floor Plan** – prepared a multi-unit apartment layout.
- **Furnished 3 BHK Floor Plan** – furnished layout showing room arrangement and furniture placement.
- **Section Views of Residential Buildings** – prepared sectional drawings with proper dimensioning.
- **Elevation of an Apartment** – prepared elevation drawings of an apartment building.

EDUCATION

B.Tech in Civil Engineering 2025 – 2029 (Expected)
Chaibasa Engineering College

Intermediate (Class XII) 2023 – 2025
Chief Minister School of Excellence, Nadia Hindu

Matriculation (Class X) 2023
Sheela Agarwal Saraswati Vidya Mandir

CERTIFICATIONS

- AutoCAD Workshop Certification – View certificate
- Tendering and Bid Process Certification – View certificate
- BIM Fundamentals Workshop Certification – View certificate

ADDITIONAL INFORMATION

- **Soft Skills:** Leadership, good communication, quick learner.
- **Languages:** English, Hindi, Bengali.
